

STROH

Jagertee

Stroh Jagertee

Translated, Jagertee means “hunter’s tea” in German; traditionally enjoyed by skiers, hunters and others after a long day of enjoyment outdoors. This rum-based herbal liqueur is blended with black tea and enhanced with an extraordinary blend of spices. It is a concentrate that only has to be diluted with hot water to be enjoyed in its traditional way. We suggest a mix of 1 part Jagertee and 3 parts hot water. However you can also try it as an ice cold shot, served in a chilled shot glass! It’s always the perfect season to enjoy the delicious taste of Stroh!

How to Drink

Traditional Warm Tea
Mix 1 part Jagertee with
3 parts hot water

Ice Cold Shot
Chill Jagertee and serve in
chilled shot glasses
